Record Storage Units

RivetRite Record Storage Units aid in records management by providing an organized solution for high density archive storage applications.

Two types of units are available; one that uses particle board (or another solid shelf deck material) and an all-steel unit with specially designed box supports.

Add-on units utilize a common Tee Post between units to save time during assembly.

Record Storage Box Supports

Steel Box Supports are an alternative to solid shelf decks.

They allow air to circulate around the entire box, helping to reduce moisture and musty smells. They align with holes pre-punched in the special double rivet beams and are secured with nylon button fasteners. They are included with the units shown at the bottom of the table to the right.
